Kenny Pham

Irvine, CA | (949)-664-6794 | kennypham@berkeley.edu | linkedin.com/in/kkphamm | kennypham.tech

Education

University of California, Berkeley December 2027
B.S. Electrical Engineering and Computer Sciences (EECS) *Berkeley, CA*

Irvine Valley College May 2025
A.S. Physics (GPA: 4.0) *Irvine, CA*

Relevant Coursework: Machine Learning, Efficient Algorithms, Data Structures & Algorithms, Discrete Math, Linear Algebra, Multivariable Calculus, Differential Equations, Electricity & Magnetism

Work Experience

AI Product Development Intern | *MCP, RAG, LLM Agents, React, GCP* June 2026 – Present
Investor Impact, Inc. / Pacific Communicators, Inc. *Tokyo, Japan (Hybrid)*

- Building **irdx.ai**, an internal AI production platform modernizing a reporting workflow spanning 20+ integrated reports, 28,800 production hours, and 250,000 printed sheets annually.
- Engineered Model Context Protocol (MCP) integrations, project-scoped RAG, and specialized LLM agents across writing, translation, proofreading, planning, and design with provenance-aware retrieval and human-in-the-loop review.
- Migrated internal workflows from Streamlit toward a production React frontend and built automated QA agents to validate code changes, generated content, source grounding, and workflow regressions.

Internal IT Intern | *Frontend Development, Shopify* February 2026 – May 2026
CraveX *Berkeley, CA*

- Doubled website conversion rate by rebuilding the company's frontend and optimizing Shopify and automated email workflows.
- Supported marketing and business operations through campaign strategy, customer acquisition initiatives, and data-informed improvements to the online sales funnel.

Teaching Intern | *Python, Scheme, SQL* February 2026 – May 2026
UC Berkeley EECS *Berkeley, CA*

- Teaching Intern for UC Berkeley's introductory class to programming and computer science (CS61A). Led lab sections for 20+ students and provided 1-on-1 instruction in recursion, higher-order functions, SQL, Scheme, macros, and core programming concepts.

Quality Assurance Assistant Intern | *Python, Excel, Data Validation* Jun 2023 – Aug 2023
Marvin Test Solutions *Irvine, CA*

- Reduced manual data-entry errors 30% by developing Python scripts to validate and analyze Excel datasets used in QA workflows.
- Maintained reliable testing operations through equipment calibration, dataset verification, and compliance with HAZMAT procedures.

Technical Projects

AI Spotify Assistant | *FastAPI, React, Electron, OpenAI, Spotipy, SQLAlchemy* Feb 2026

- Built a voice-controlled Spotify desktop app using Electron/React, Whisper intent parsing, OAuth 2.0, and an asynchronous FastAPI backend for low-latency playback control.

WorldCraft - 3D Environment Reconstruction | *Python, Semantic NeRF, PyTorch* Dec 2025

- Trained Semantic NeRF models to reconstruct physical environments and engineered point-cloud export workflows for conversion into navigable Minecraft worlds.

Jask - AI Interview Intelligence | *React, LiveKit, FastAPI, OpenAI* Oct 2025

- Built a real-time AI interview assistant with WebRTC speech streaming, live sentiment analysis, WebSockets, and asynchronous LLM evaluation at Cal Hacks 12.0.

Technical Skills

Languages: Python, C, C++, Java, SQL, JavaScript (ES6+), HTML5/CSS3, Scheme, RISC-V
AI, ML & Data: Scikit-learn, Pandas, NumPy, OpenCV, GenAI (GPT, Gemini, Claude), RAG, Matplotlib, Semantic NeRF, Whisper
Web & Tools: React.js, Node.js, FastAPI, Flask, REST APIs, Git, GitHub, Linux, GCP, Shopify

Leadership & Extracurriculars

Eagle Scout & Senior Patrol Leader | *Boy Scouts of America, Troop 963* May 2022

- Led 22 volunteers through planning and execution of a community service project, coordinating logistics, delegation, and project delivery.
